Oggetto: Possible cooperation

Respected,

First of all, I want to convey greetings from our delegation that visited your company.

We would like to establish cooperation with Beretta, in the field of uniform, probably for a long period.

We are now in process to find the best solution for our Armed Forces, in order to be equipped according to the latest technology.

In accordance with this, it would be great, if you could send parts of uniform and boots, so that our team could see it.

This is good opportunity to see it firsthand, and get "a picture" of the appearance, cut and quality.

Also, technical specification of all parts of uniform will help as a lot.

If you have any questions, be free to contact me.

Best regards

Dear Darko, let me give you a quick update about the availability of samples of Military Clothing that your delegation had the chance to evaluate during the last visit at Beretta.

N. 2 full kits are ready and additional 8 Battle Dress Uniform, Combat Shirt and tactical underwear will be available within the 15th of February.

The only missing items, that will be delivered to us within the end of February, are the tactical boots and the Gore-Tex Rain Jacket.

In the event of a visit of a delegation in Italy within the first half of February (?) we could deliver the available items directly in your hands .

Let me know if we can give you a better assistance in order to define timing.

Best Regards

Antonio
