## SPRING SCHOOL

THE SUSTAINABLE USE OF RESOURCES IN MARINE-COASTAL AREAS

11th-12th-13th May, 2022

Aula Adriatico, University of Molise - Termoli

The Spring School is an international training event, which aims to provide information and tools to address the main challenges related to the sustainable use of resources in marine-coastal areas and to disseminate knowledge and good practices for the coastal territories. The Spring School, addressed to companies, professionals (Italian and foreign), associations and bodies related to the management and protection of marine-coastal ecosystems, students of different levels, intends to strengthen the ability to plan and formulate the proposal of new projects on the Blue Growth subject within the forthcoming European calls. Those who follow the complete spring school and pass a final assessment test, will receive 2 University ECTS.

## SMART ADRIA Blue Growth MAIN GOAL

The project intends to develop the interconnection between Blue Growth and Smart Specialization, linking Universities, the Business World, the Civil Society and Institutions so as to transfer research and innovation results about the sustainable growth into the "blue economy"; the set of all economic, scientific, cultural and social activities linked to the marine-coastal area as a whole.
