Dear Bernd,

I am sending you answers colored in green.

1) have received a written invitation from a veterinary organization operating in the territory of Montenegro;

Who are all veterinary organizations in Montenegro?

I've learned that Saska is authorized to issue invitations. Who else can do this, or can the Montenegrin Veterinary Office do it, so we have flexibility in the future?

How long is the authorization valid for?

What steps would Family Vet or the city of Niksic need to take with us to ensure that the spay/neuter week can also be held in the Free Zone in the future?

Veterinary Organizations in Montenegro are all registered veterinary ambulances, clinics and practices. Without knowledge of language and permanent stay in MNE

Can this short stay be requested multiple times per year?

Are the veterinarians then also allowed to perform castrations and surgeries themselves?

Yes, short stay can be requested multiple times per year, and veterinarian are allowed to perform castrations and surgeries.

We are currently converting a fire truck into a mobile clinic and want to use it to perform spay/neuter surgeries in Montenegro. What do we need to register in advance? This is a very important point for our future involvement in Montenegro. We face high investment costs here.

We also want to use the mobile clinic to perform neutering procedures in remote areas of Montenegro.

Current Montenegrin Law does not foresee this type of clinics, so at the moment it is not possible to register it.

How do we need to proceed to ensure that the Free Zone and our Mobile Clinic can be approved in the future?

I think a draft bill needs to be submitted. What would be the possible process?

Is there a chance that this could be approved by law within 6-12 months?

2) hold a license or another appropriate document issued by the competent authority of the country they come from, ce
I have attached the licenses of the German veterinarians again. Is this sufficient, or do the documents need to be certified again?

I believe they should be translated also on Montenegrin or English, but that is a question for issuing body, in this case Veterinary Chamber of Montenegro.
You can contact them on mail vet.kom.cg@t-com.me

Do you have a direct contact here? I'm afraid my email to the veterinary chamber will be ignored. What would be a way to get a quick solution?
I will give you a contact, but they don't know English language, and they need help with it which they engage when e-mail is received. So I don't think a call will give better results.
The number is *382 67 232 867 – Vesna, secretary of the Chamber.

When both point are fulfilled, you send requests to Veterinary Chamber of Montenegro.

Where do the documents need to be sent?
Do we need to send the documents, or does Family Vet need to do this?
How long will the processing take?
Is it realistic to hold a castration week in March?
All of this questions are intended for Chamber, on a mail above I already wrote to you.

Regards,
Milan

Dear Milan,

Thank you so much for the information.

Unfortunately, it's probably too late for us to hold the neutering week in March.
I sent the initial request on July 18, 2025, and now, six months later, we've only reached this point.
However, I'd like to at least finalize the details so we can ensure the neutering weeks can be held in the future.

Poštovani Milan,

Hvala Vam puno na informacijama.

Nažalost, vjerovatno je prekasno da održimo sedmicu sterilizacije/kastracije u martu. Početni zahtjev sam poslao 18. jula 2025. godine, a sada, šest mjeseci kasnije, s
Međutim, želio bih barem finalizirati detalje kako bismo osigurali da se sedmice sterilizacije/kastracije mogu održati u budućnosti.

U vezi s Vašim tačkama:

1) primio sam pisani poziv od veterinarske organizacije koja djeluje na teritoriji Crne Gore;

Koje su sve veterinarske organizacije u Crnoj Gori?
Saznao sam da je Saska ovlaštena za izdavanje pozivnica. Ko još može to učiniti, ili to može učiniti Veterinarska kancelarija Crne Gore, kako bismo imali fleksibilno
Koliko dugo važi ovlaštenje?
Koje korake bi Family Vet ili grad Nikšić trebali poduzeti s nama kako bi osigurali da se sedmica sterilizacije/kastracije može održati i u Slobodnoj zoni u budućnosti

Trenutno preuređujemo vatrogasno vozilo u mobilnu kliniku i želimo je koristiti za obavljanje sterilizacije/kastracije u Crnoj Gori. Šta trebamo unaprijed registrovati
Ovo je veoma važna tačka za naše buduće učešće u Crnoj Gori. Suočavamo se sa visokim investicionim troškovima.
Takođe želimo koristiti mobilnu kliniku za obavljanje postupaka kastracije/kastracije u udaljenim područjima Crne Gore.

2) posjedovati licencu ili drugi odgovarajući dokument izdat od strane nadležnog organa zemlje iz koje dolaze, ovjeren apostilom.
Ponovo sam priložio licence njemačkih veterinara. Da li je to dovoljno ili dokumente treba ponovo ovjeriti?

Kada su obje tačke ispunjene, šaljete zahtjeve Veterinarskoj komori Crne Gore.

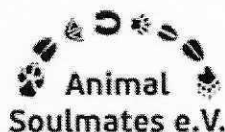

Koliko će trajati obrada?

Da li je realno održati sedmicu kastracije u martu?

Srdačan pozdrav
Bernd

Hello Gorica,

We spoke about this on December 12th. I wanted to check in again on the current status:

1. Permission for German veterinarians to perform neutering procedures in Montenegro.
2. Permission for us to hold the neutering weeks in the Free Zone.

Since it's only about three months away and we want to book flights and accommodations, it shouldn't take much longer.

Best regards,
Bernd

Razgovarali smo o ovome 12. decembra. Želio sam ponovo provjeriti trenutni status:

1. Dozvola njemačkim veterinarima da obavljaju postupke sterilizacije/kastracije u Crnoj Gori.
2. Dozvola da mi provedemo sedmice sterilizacije/kastracije u Slobodnoj zoni.

S obzirom da je to za samo oko tri mjeseca i želimo rezervirati letove i smještaj, ne bi trebalo dugo trajati.

Srdačan pozdrav,

Hello Milan,

we met at our animal shelter at the end of October. I also follow your activities via Kirsi, thank you so much for your dedication!

We are planning another spay/neuter week with German veterinarians in Nikšić, Montenegro, in mid-March 2026. To ensure it can take place legally this time, I have

1. According to Friederike Wünschmann from the German delegation, who was also present at our meeting, the National Information Center Montenegro is responsible for the process. <https://www.enic-naric.net/page-montenegro>. Should I send the veterinarians' diplomas directly there? Or to you at the veterinary office? What is the procedure?

2. We would like to perform the neutering procedures in the containers of the Free Zone in the town of Nikšić, as the facilities there are ideal. According to Saskia from (operating tables, etc.). What is required, what do we need to do to obtain the permits?

I have copied Saskia from FamilyVet and from the city administrations Gorica Golovic, Vidak Krtolica, Milorad Zecevic and Natasa Bakic. I will be in Nikšić next Friday, December 12th. I hope for a prompt and positive response.

We have many plans for the coming years; currently, we are converting an old fire truck into a mobile clinic (see picture). We will be fitting it with operating tables, etc. throughout Montenegro.

Best regards,
Bernd

Zdravo Milane,

sastali smo se u našem skloništu za životinje krajem oktobra. Pratim i tvoje aktivnosti preko Kirsi, puno ti hvala na predanosti!

Planiramo još jednu sedmicu sterilizacije/kastracije sa njemačkim veterinarima u Nikšiću, Crna Gora, sredinom marta 2026. Da bismo osigurali da se ovaj put to može

1. Prema Friederike Wünschmann iz njemačke delegacije, koja je također bila prisutna na našem sastanku, Nacionalni informativni centar Crne Gore je odgovoran za proces. <https://www.enic-naric.net/page-montenegro>. Da li da diplome veterinara pošaljemo direktno tamo? Ili vama u veterinarsku ordinaciju? Kakva je procedura?

2. Željeli bismo provoditi postupke sterilizacije/kastracije u kontejnerima Slobodne zone u gradu Nikšiću, jer su objekti tamo idealni. Prema Saski iz FamilyVeta, trebamo učiniti da bismo dobili dozvole?

Kopirao sam Sašku iz FamilyVeta i iz gradske uprave Gorice Golović, Vidaka Krtolice, Milorada Zečevića i Nataše Bakić. Bit ću u Nikšiću sljedećeg petka, 12. decembra. Nadam se brzom i pozitivnom odgovoru.

Imamo mnogo planova za naredne godine; trenutno pretvaramo staro vatrogasno vozilo u mobilnu kliniku (vidi sliku). Opremit ćemo je operacijskim stolovima, ormarićima i lokacijama širom Crne Gore.

Srdačan pozdrav,
Bernd
