

CREATIVE EUROPE

CROSS-SECTORAL STRAND

CALL FOR PROPOSALS – EACEA/06/2019

Bridging culture and audiovisual content through digital

GUIDELINES

1. INTRODUCTION – BACKGROUND

These guidelines are based on the Regulation No 1295/2013 of the European Parliament and of the Council of 11/12/2013 concerning the implementation of a programme of support for the European cultural and creative sector (CREATIVE EUROPE) and the corrigendum of the 27/06/2014¹, as well as on the 2019 annual work programme for the implementation of the Creative Europe Programme (C(2018) 6687 of 16 October 2018).

The European Commission is responsible for the implementation of the Creative Europe Programme and for the decision to grant individual European Union funds. The Education, Audiovisual and Culture Executive Agency hereafter "the Agency" manages the Cross Sectoral Strand on behalf and under supervision of the European Commission.

General background information about the Creative Europe programme can be found on the following link: http://ec.europa.eu/programmes/creative-europe/index_en.htm.

2. OBJECTIVES - PRIORITIES

Within the specific objective to foster policy development, innovation, creativity, audience development and new business and management models through support for transnational policy cooperation, the cross-sectoral strand of the Creative Europe Programme, shall provide support to testing of new and cross-sectoral business approaches to funding, distributing and monetising creation.

A workshop was organized in February 2019 to discuss the scope and main features of a new action codenamed Creative Innovation Lab, put forward by the Commission in the proposal on the Creative Europe regulation post 2020. This action will implement project(s) at the cross roads between different cultural and creative sectors, (including audiovisual), through the use of innovative technologies. It will also foster innovative cross-sectoral approaches and tools to facilitate access, distribution, promotion and monetisation of culture and creativity.

Two calls will test out the concept on a pilot, experimental basis, under the current multiannual financial framework:

- The present Call
- A second Call for proposals to be published once the Work Programme 2020 is adopted.

Innovative technologies can build bridges among different cultural and creative sectors. The role of digital technologies for cultural and creative sector is at the heart of the Commission's #Digital4Culture strategy. That is the Commission's strategy coupling culture and digital, using the digital potential to empower the positive economic and societal effects of culture.

Digital production and distribution in the age of media convergence is one of the pillars of the strategy. The digital revolution enables the creation of new and innovative artistic creations, but also innovative ways of presenting cultural heritage. In the digital environment, convergence of media – in particular audiovisual – and content is profoundly affecting production and distribution models. By using digital tools (including data and algorithms), the production of culture and creative goods can find new forms of expression, enhance cultural experiences (e.g. in museums and art galleries) and bring about new forms of cooperation among artists and other actors. In turn, culture and the arts can bring in their creativity potential to enhance the innovative capacity of Europe, both for society and industry.

In the light of this, this action will implement project(s) at the cross roads between different cultural and creative sectors (including audiovisual), for instance through the use of innovative technologies, including

¹ Regulation No 1295/2013, published in the Official Journal of the European Union on the 20/12/2013 (OJ L 347/221) and 27/06/2014 (OJ L 189/260).

virtual reality. It will also foster innovative cross-sectoral approaches and tools to facilitate access, distribution, promotion and monetisation of culture and creativity, including cultural heritage.

Support will be given to projects:

a) featuring new forms of creation at the cross roads between different cultural and creative sectors, including the audiovisual sector, and through the use of innovative technologies, including virtual reality,

or

b) fostering innovative cross sectoral approaches and tools to facilitate access, distribution, promotion and/or monetisation of culture and creativity, including cultural heritage.

The focus should be on the following aspects:

- problem solving approach and addressing challenges for the cultural and creative sectors;
- audiences and the user experience are of paramount importance in scoping the problem;
- technology is an enabler in addressing key problems, rather than an objective on its own;
- support innovation as regards the creation, distribution and promotion of creative content, addressing cross-sectoral collaboration as well as the use of enabling technologies is also an objective.

For more details please also see the annex to this Call, "Workshop main conclusions 20th February 2019" which provides guiding principles.

The results of the undertaken actions should be shared with stakeholders and policy makers through the organisation of a public workshop and assessment of the impact of the action.

11.2.1. Eligible direct costs

The eligible direct costs for the action are those costs which:

with due regard to the conditions of eligibility set out above, are identifiable as specific costs directly linked to the performance of the action and which can therefore be booked to it directly, such as :

- (a) *the costs of personnel working under an employment contract with the beneficiary or an equivalent appointing act and assigned to the action, provided that these costs are in line with the beneficiary's usual policy on remuneration.*

Those costs include actual salaries plus social security contributions and other statutory costs included in the remuneration. They may also comprise additional remunerations, including payments on the basis of supplementary contracts regardless of the nature of those contracts, provided that they are paid in a consistent manner whenever the same kind of work or expertise is required, independently from the source of funding used;

The costs of natural persons working under a contract with the beneficiary other than an employment contract or who are seconded to the beneficiary by a third party against payment may also be included under such personnel costs, provided that the following conditions are fulfilled:

- (i) *the person works under conditions similar to those of an employee (in particular regarding the way the work is organised, the tasks that are performed and the premises where they are performed);*
- (ii) *the result of the work belongs to the beneficiary (unless exceptionally agreed otherwise); and*
- (iii) *the costs are not significantly different from the costs of staff performing similar tasks under an employment contract with the beneficiary;*

The recommended methods for the calculation of direct personnel costs are provided in Appendix.

- (b) *costs of travel and related subsistence allowances, provided that these costs are in line with the beneficiary's usual practices on travel;*
- (c) *the depreciation costs of equipment or other assets (new or second-hand) as recorded in the beneficiary's accounting statements, provided that the asset:*
 - (i) *is written off in accordance with the international accounting standards and the beneficiary's usual accounting practices; and*
 - (ii) *has been purchased in accordance with the rules on implementation contracts laid down in the grant agreement, if the purchase occurred within the implementation period;*

The costs of renting or leasing equipment or other assets are also eligible, provided that these costs do not exceed the depreciation costs of similar equipment or assets and are exclusive of any finance fee;

Only the portion of the equipment's depreciation, rental or lease costs corresponding to the implementation period and the rate of actual use for the purposes of the action may be taken into account when determining the eligible costs. By way of exception, the full cost of purchase of equipment may be eligible under the Special Conditions, if this is justified by the nature of the action and the context of the use of the equipment or assets;

- (d) *costs of consumables and supplies, provided that they:*
 - (i) *are purchased in accordance with the rules on implementation contracts laid down in the grant agreement; and*
 - (ii) *are directly assigned to the action;*

- (e) *costs arising directly from requirements imposed by the Agreement (dissemination of information, specific evaluation of the action, audits, translations, reproduction), including the costs of requested financial guarantees, provided that the corresponding services are purchased in accordance with the rules on implementation contracts laid down in the grant agreement;*
- (f) *costs derived from subcontracts, provided that specific conditions on subcontracting as laid down in the grant agreement are met;*
- (g) *duties, taxes and charges paid by the beneficiary, notably value added tax (VAT), provided that they are included in eligible direct costs, and unless specified otherwise in the grant agreement.*

11.2.2. Eligible indirect costs (overheads)

Indirect costs are costs that are not directly linked to the action implementation and therefore cannot be attributed directly to it.

A flat-rate amount of maximum 7% of the total eligible direct costs of the action is eligible as indirect costs, representing the beneficiary's general administrative costs which can be regarded as chargeable to the action/project.

Indirect costs may not include costs entered under another budget heading.

Applicants' attention is drawn to the fact that if they are receiving an operating grant financed by the EU or Euratom budget, they may not declare indirect costs for the period(s) covered by the operating grant, unless they can demonstrate that the operating grant does not cover any costs of the action.

In order to demonstrate this, in principle, the beneficiary should:

- a. *use analytical cost accounting that allows to separate all costs (including overheads) attributable to the operating grant and the action grant. For that purpose the beneficiary should use reliable accounting codes and allocation keys ensuring that the allocation of the costs is done in a fair, objective and realistic way.*
- b. *record separately:*
 - all costs incurred for the operating grants (i.e. personnel, general running costs and other operating costs linked to the part of its usual annual activities), and
 - all costs incurred for the action grants (including the actual indirect costs linked to the action)

If the operating grant covers the entire usual annual activity and budget of the beneficiary, the latter is not entitled to receive any indirect costs under the action grant.

11.3. Ineligible costs

The following items are not considered as eligible costs:

- a) return on capital and dividends paid by a beneficiary;
- b) debt and debt service charges;
- c) provisions for losses or debts;
- d) interest owed;
- e) doubtful debts;
- f) exchange losses;
- g) costs of transfers from the Agency charged by the bank of a beneficiary;
- h) costs declared by the beneficiary under another action receiving a grant financed from the Union budget. Such grants include grants awarded by a Member State and financed from the Union budget and grants awarded by bodies other than the Agency for the purpose of implementing the Union budget. In particular, beneficiaries receiving an operating grant financed by the EU or Euratom budget cannot declare indirect costs for the period(s) covered by the operating grant, unless they can demonstrate that the operating grant does not cover any costs of the action.
- i) contributions in kind;

- j) excessive or reckless expenditure;
- k) deductible VAT
- l) expenses for travel to or from countries other than those participating in the project/programme, unless explicit prior authorisation is granted by the Agency.

11.4. Balanced budget

The estimated budget of the action must be attached to the application form. It must have revenue and expenditure in balance.

The budget must be drawn up in euros.

Applicants for whom costs will not be incurred in euros should use the exchange rate applicable on the month this Call for proposals has been published and accessible on the Infor-euro website at:

http://ec.europa.eu/budget/contracts_grants/info_contracts/inforeuro/inforeuro_en.cfm

The applicant must ensure that the resources which are necessary to carry out action are not entirely provided by the EU grant.

Co-financing of the action may take the form of:

- the beneficiary's own resources,
- income generated by the action,
- financial contributions from third parties.

11.5. Calculation of the final grant amount

The final amount of the grant is calculated by the Agency at the time of the payment of the balance. The calculation involves the following steps:

Step 1 — Application of the reimbursement rate to the eligible costs and flat rate contributions

The amount under step 1 is obtained by applying the reimbursement rate specified in section 11.1.1 to the eligible costs actually incurred and accepted by the Agency, including costs declared in the form of flat rate contributions to which the co-financing rate applies in accordance with section 11.1.2.

Step 2 — Limit to the maximum amount of the grant

The total amount paid to the beneficiaries by the Agency may in no circumstances exceed the maximum amount of the grant as indicated in the grant agreement. If the amount obtained following Step 1 is higher than this maximum amount, the final amount of the grant is limited to the latter.

Step 3 — Reduction due to the no-profit rule

‘Profit’ means the surplus of receipts over the total eligible costs of the action, where receipts are the amount obtained following Steps 1 and 2 plus the revenue generated by the action for beneficiaries other than non-profit organisations.

In-kind and financial contributions by third parties are not considered receipts.

The total eligible costs of the action are the consolidated total eligible costs approved by the Agency. The revenue generated by the action is the consolidated revenue established, generated or confirmed for beneficiaries other than non-profit organisations on the date on which the request for payment of the balance is drawn up.

If there is a profit, it will be deducted in proportion to the final rate of reimbursement of the actual eligible costs of the action approved by the Agency.

Step 4 — Reduction due to improper implementation or breach of other obligations

The Agency may reduce the maximum amount of the grant if the action has not been implemented properly (i.e. if it has not been implemented or has been implemented poorly, partially or late), or if another obligation under the Agreement has been breached.

The amount of the reduction will be proportionate to the degree to which the action has been implemented improperly or to the seriousness of the breach.

11.6. Reporting and payment arrangements

11.6.1 Payment arrangements

The beneficiary may request the following payments provided that the conditions of the grant agreement are fulfilled (e.g. payment deadlines, ceilings, etc.). The payment requests shall be accompanied by the documents provided below and detailed in the grant agreement:

Payment request	Accompanying documents
A pre-financing payment corresponding to 50 % of the maximum grant amount	A financial guarantee (if needed, see section 11.6.2)
A second pre-financing payment corresponding to 20 % of the maximum grant amount.	(a) technical report on progress (b) statement on the use of the previous pre-financing instalment (c) financial guarantee (see section 11.6.2)
Payment of the balance The Agency will establish the amount of this payment on the basis of the calculation of the final grant amount (see section 11.6 above). If the total of earlier payments is higher than the final grant amount, the beneficiary will be required to reimburse the amount paid in excess by the Commission through a recovery order.	(a) a final technical report and declaration on honour and payment request (b) a final financial statement (c) a report of Factual Findings on the Final Financial Report - Type I or Type 2

In case of a weak financial capacity, Section 8.1 above applies.

11.6.2 Pre-financing guarantee

A pre-financing guarantee for up to the same amount as the pre-financing may be requested in order to limit the financial risks linked to the pre-financing payment.

The financial guarantee, in euro, shall be provided by an approved bank or financial institution established in one of the EU Member States. When the beneficiary is established in a third country, the Agency may agree that a bank or financial institution established in that third country may provide the guarantee if it considers that the bank or financial institution offers equivalent security and characteristics as those offered by a bank or financial institution established in a Member State. Amounts blocked in bank accounts shall not be accepted as financial guarantees.

The guarantee may be replaced by:

- a joint and several guarantee by a third party or,
- a joint guarantee of the beneficiaries of an action who are parties to the same grant agreement.

The guarantee shall be released as the pre-financing is gradually cleared against interim payments or the payment of the balance, in accordance with the conditions laid down in the grant agreement.

As an alternative to requesting a guarantee on pre-financing, the Agency may decide to split the payment of pre-financing into several instalments.

11.7. Other financial conditions

a) Non-cumulative award

An action may only receive one grant from the EU budget.

Under no circumstances shall the same costs be financed twice by the Union budget. To ensure this, applicants shall indicate in the grant application the sources and amounts of Union funding received or applied for the same action or part of the action or for its functioning during the same financial year as well as any other funding received or applied for the same action.

b) Non-retroactivity

No grant may be awarded retrospectively for actions already completed.

A grant may be awarded for an action which has already begun only where the applicant can demonstrate in the grant application the need to start the action before the grant agreement is signed.

In such cases, costs eligible for financing may not have been incurred prior to the date of submission of the grant application.

c) Implementation contracts/subcontracting

Where the implementation of the action requires the award of procurement contracts (implementation contracts), the beneficiary may award the contract in accordance with its usual purchasing practices provided that the contract is awarded to the tender offering best value for money or the lowest price (as appropriate), avoiding conflicts of interest.

In the event of implementation contracts exceeding € 60 000, the beneficiary must abide by following additional rules: informing the Agency before proceeding in order to get the approval and national rules on awarding contracts shall apply.

The beneficiary is expected to clearly document the tendering procedure and retain the documentation in the event of an audit.

Entities acting in their capacity as contracting authorities within the meaning of Directive 2014/24/EU² or contracting entities within the meaning of Directive 2014/25/EU³ must comply with the applicable national public procurement rules.

Beneficiaries may subcontract tasks forming part of the action. If they do so, they must ensure that, in addition to the above-mentioned conditions of best value for money and absence of conflicts of interests, the following conditions are also complied with:

- a) subcontracting does not cover core tasks of the action;
- b) recourse to subcontracting is justified because of the nature of the action and what is necessary for its implementation;
- c) the estimated costs of the subcontracting are clearly identifiable in the estimated budget;
- d) any recourse to subcontracting, if not provided for in description of the action, is communicated by the beneficiary and approved by the Agency. The Agency may grant approval:

² Directive 2014/24/EU of the European Parliament and of the Council of 26 February 2014 on public procurement and repealing Directive 2004/18/EC (OJ L 94, 28.3.2014, p. 65-242)

³ Directive 2014/25/EU of the European Parliament and of the Council of 26 February 2014 on procurement by entities operating in the water, energy, transport and postal services sectors and repealing Directive 2004/17/EC (OJ L 94, 28.3.2014, p. 243-374)

- (i) before any recourse to subcontracting, if the beneficiaries requests an amendment
- (ii) after recourse to subcontracting if the subcontracting:
 - is specifically justified in the interim or final technical report and
 - does not entail changes to the grant agreement which would call into question the decision awarding the grant or be contrary to the equal treatment of applicants;
- e) the beneficiaries ensure that certain conditions applicable to beneficiaries, enumerated in the grant agreement (e.g. visibility, confidentiality, etc.), are also applicable to the subcontractors.

d) Financial support to third parties

The applications may not envisage provision of financial support to third parties.

12. PUBLICITY

12.1. By the beneficiaries

Beneficiaries must clearly acknowledge the European Union's contribution in all publications or in conjunction with activities for which the grant is used.

In this respect, beneficiaries are required to give prominence to the name and emblem of the European Commission on all their publications, posters, programmes and other products realised under the co-financed project. The text, the emblem and the disclaimer must be used and are available at https://eacea.ec.europa.eu/about-eacea/visual-identity_en.

If this requirement is not fully complied with, the beneficiary's grant may be reduced in accordance with the provisions of the grant agreement.

12.2. By the Agency and/or the Commission

With the exception of scholarships paid to natural persons and other direct support paid to natural persons in most need, all information relating to grants awarded in the course of a financial year shall be published on an internet site of the European Union institutions no later than the 30 June of the year following the financial year in which the grants were awarded.

The Agency and/or the Commission will publish the following information:

- name of the beneficiary;
- address of the beneficiary when the latter is a legal person, region when the beneficiary is a natural person, as defined on NUTS 2 level⁴ if he/she is domiciled within the EU or equivalent if domiciled outside the EU;
- subject of the grant;
- nature and amount awarded.

Upon a reasoned and duly substantiated request by the beneficiary, the publication shall be waived if such disclosure risks threatening the rights and freedoms of individuals concerned as protected by the Charter of Fundamental Rights of the European Union or harm the commercial interests of the beneficiaries.

12.3. Communication and dissemination

To maximise the impact, projects should have a clear and strong strategy for communication and dissemination of their activities and results, and applicants must provide enough time and resources to communicate and interact appropriately with peers, audiences and local communities as appropriate.

⁴ Commission Regulation (EC) No 105/2007 of 1 February 2007 amending the annexes to Regulation (EC) No 1059/2003 of the European Parliament and of the Council on the establishment of a common classification of territorial units for statistics (NUTS), OJ L39, 10.2.2007, p.1.

At the final report stage, (*as stipulated in the grant agreement*) beneficiaries will be required to produce an updated summary/report of the project. In addition, the beneficiaries will be able to upload the project results to the dissemination platform. This information may be used by the Commission to provide information on the results of projects

The Commission together with the Agency may identify good practices and prepare relevant dissemination materials to be shared within and across all participating countries and beyond.

Data and results from projects will be made freely available to be used by stakeholders, policy makers and others in a wide range of ways.

Beneficiaries may be required to attend and to participate in events organised by the European Commission or the Agency to share their experience with other participants and/or policy makers.

13. PROCESSING OF PERSONAL DATA

The reply to any call for proposals involves the recording and processing of personal data (such as name, address and CV). Such data will be processed pursuant to Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC⁵.

Unless indicated otherwise, the questions and any personal data requested that are required to evaluate the application in accordance with the call for proposal will be processed solely for that purpose by the Educational and Audiovisual Executive Agency (EACEA).

Personal data may be registered in the Early Detection and Exclusion System by the Commission, should the beneficiary be in one of the situations mentioned in Articles 136 and 141 of Regulation (EU, Euratom) 2018/1046⁶. Specific conditions for direct personnel costs

1. Calculation

The ways of calculating eligible direct personnel costs laid down in points (a) and (b) below are recommended and accepted as offering assurance as to the costs declared being actual.

The Agency may accept a different method of calculating personnel costs used by the beneficiary, if it considers that it offers an adequate level of assurance of the costs declared being actual.

a) for persons working exclusively on the action:

{ monthly rate for the person

multiplied by

number of actual months worked on the action }

The months declared for these persons may not be declared for any other EU or Euratom grant.

The **monthly rate** is calculated as follows:

{ annual personnel costs for the person

divided by 12 }

using the personnel costs for each full financial year covered by the reporting period concerned.

If a financial year is not closed at the end of the reporting period, the beneficiaries must use the monthly rate of the last closed financial year available;

b) for persons working part time on the action

(i) If the person is assigned to the action at a fixed pro-rata of their working time:

{ monthly rate for the person multiplied by pro-rata assigned to the action

multiplied by

number of actual months worked on the action }

The working time pro-rata declared for these persons may not be declared for any other EU or Euratom grant.

The monthly rate is calculated as above.

(ii) In other cases:

{ hourly rate for the person multiplied by number of actual hours worked on the action }

or

{ daily rate for the person multiplied by number of actual days worked on the action }

(rounded up or down to the nearest half-day)

The number of actual hours/days declared for a person must be identifiable and verifiable.

The total number of hours/days declared in EU or Euratom grants, for a person for a year, cannot be higher than the annual productive hours/days used for the calculations of the hourly/daily rate. Therefore, the maximum number of hours/days that can be declared for the grant are:

{number of annual productive hours/days for the year (see below)

minus

total number of hours and days declared by the beneficiary, for that person for that year, for other EU or Euratom grants}.

The ‘**hourly/daily rate**’ is calculated as follows:

{annual personnel costs for the person

divided by

number of individual annual productive hours/days} using the personnel costs and the number of annual productive hours/days for each full financial year covered by the reporting period concerned.

If a financial year is not closed at the end of the reporting period, the beneficiaries must use the hourly/daily rate of the last closed financial year available.

The ‘number of individual annual productive hours/days’ is the total actual hours/days worked by the person in the year. It may not include holidays and other absences (such as sick leave, maternity leave, special leave, etc). However, it may include overtime and time spent in meetings, trainings and other similar activities.

2. Documentation to support personnel costs declared as actual costs

For **persons working exclusively on the action**, where the direct personnel costs are calculated following **point (a)**, there is no need to keep time records, if the beneficiary signs a **declaration** confirming that the persons concerned have worked exclusively on the action.

For **persons assigned to the action at a fixed pro-rata of their working time**, where the direct personnel costs are calculated following **point (b)(i)**, there is no need to keep time records, if the beneficiary signs a declaration that the persons concerned have effectively worked at the fixed pro-rata on the action.

For **persons working part time on the action**, where direct personnel costs are calculated following **point (b)(ii)**, the beneficiaries must keep **time records** for the number of hours/days declared. The time records must be in writing and approved by the persons working on the action and their supervisors, at least monthly.

In the absence of reliable time records of the hours worked on the action, the Agency may accept alternative evidence supporting the number of hours/days declared, if it considers that it offers an adequate level of assurance.
