INTRODUCTION

This report gives an overview on the start of the school year and its length as well as the timing and length of school holidays. It covers both primary and general secondary education. The information is available for the 37 countries participating in the EU's Erasmus+ programme (27 EU Member States, Albania, Bosnia and Herzegovina, Switzerland, Iceland, Liechtenstein, Montenegro, North Macedonia, Norway, Serbia and Türkiye). The reference year is 2023/2024.

KEY POINTS

The school year generally starts at the beginning of September

In most of the European education systems, the school year starts in September. It starts on 1 September in 11 education systems ⁽¹⁾. Students in Malta are the last to return to school at the end of September. In eight education systems, school starts in August ⁽²⁾. It may start as early as 9 August in Finland.

The length of the summer holidays varies a lot across Europe

In Europe, the summer holidays generally start between the end of May and the second half of July. In the majority of the education systems, students have between 8 and 12 weeks.

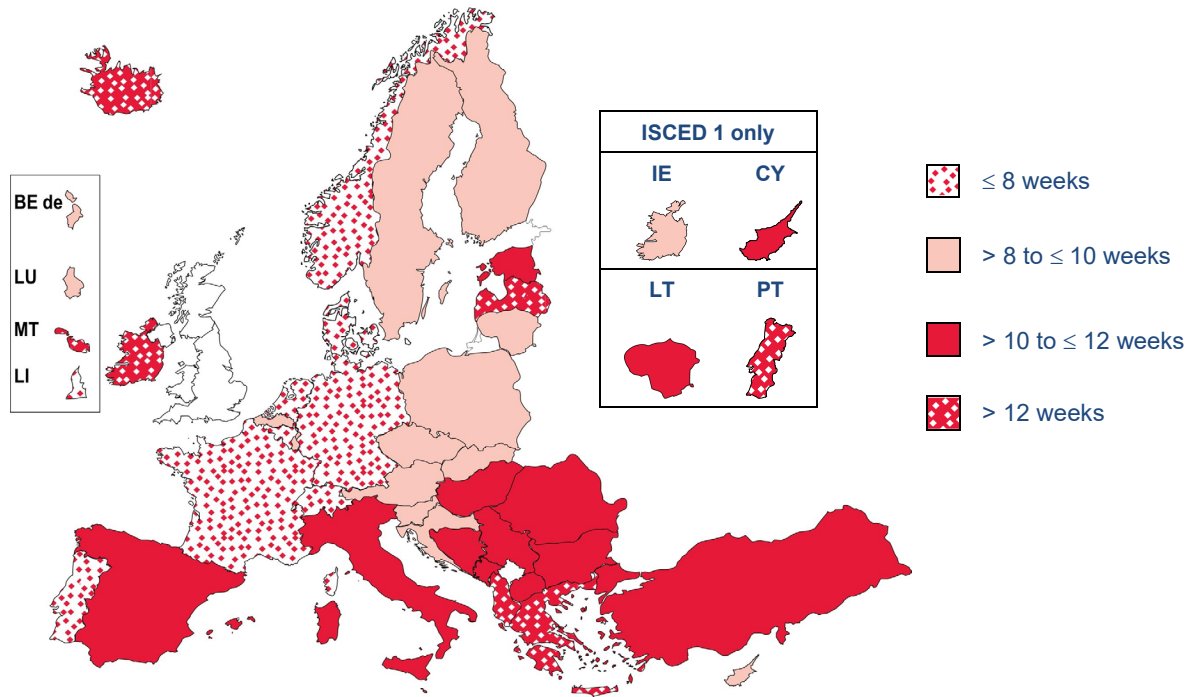

However, the length of the summer holidays varies significantly between countries (see Figure 1). They last no more than 8 weeks in the French Community of Belgium, Denmark, some German *Länder*, France, the Netherlands, Portugal (ISCED 2-3), some Swiss cantons, Liechtenstein and Norway. At the opposite end, students are on holidays for more than 12 weeks in Ireland (ISCED 2 and 3), Greece, Latvia, Malta, Portugal (ISCED 1), Albania and Iceland (ISCED 2-3).

In some countries, the length of the summer holidays varies depending on the level of education. In Lithuania, students in primary education have two more weeks than those in general secondary education. In three countries, students in primary education have more holidays than those in general secondary education. They may have one month more in Portugal, two more weeks in Lithuania, and one and a half week more in Cyprus); Conversely, students in general secondary education have longer summer holidays. In Iceland they have two weeks less and in Ireland about four weeks less.

⁽¹⁾ Belgium (German-speaking and Flemish Communities), Estonia, Ireland, Latvia, Lithuania, Hungary, Slovenia, Slovakia, North Macedonia and Serbia

⁽²⁾ In the French Community of Belgium, Denmark, Finland, Sweden, Switzerland, Iceland, Liechtenstein and Norway. It may also be the case in Germany, Ireland and the Netherlands depending on the region or the school.

Figure 1: Length of summer holidays (in weeks) in primary and general secondary education (ISCED 1-3), 2023/2024

Source: Eurydice.

Explanatory note

See Figure 2.

Data are available as open data at <https://eurydice.eacea.ec.europa.eu/publications/organisation-school-time-europe-primary-and-general-secondary-education-20232024>.

Country-specific notes

Belgium (Flemish Community): the data has not been validated by the Eurydice National Unit.

Spain, France, Croatia, Italy, Malta and Portugal: the exact dates for the start of the school year in 2024/2025 are not yet available. The summer period is calculated with the assumption that students will come back to school at the same period as in 2023/2024.

Iceland: the map shows the category for ISCED 3. For ISCED 1 and 2, the duration is between 10 and 12 weeks.

Figure 2: Length of the school year and distribution of holidays in primary and general education (ISCED 1-3), 2023/2024

Figure 2 (continued): Length of the school year and distribution of holidays in primary and general education (ISCED 1-3), 2023/2024

Explanatory note

See in Annex the figures including, when applicable, school calendars depending on the region or the zone. All dates are also available as open data at: <https://eurydice.eacea.ec.europa.eu/publications/organisation-school-time-europe-primary-and-general-secondary-education-20232024>

Beginning of the school year: the first day when students are meant to resume school activities, usually after the longest holiday period. It is the day that is indicated in official documents even if it is not an instruction day.

Holiday period: days when students are not required to be present at school (compared to usual school week). This includes public holidays. Examination periods (even if taken outside the schools), school trips when some or all students are not present at school are not considered, even if only some students are required to attend.

When there is a holiday period immediately before a weekend, the days of the weekend that follows are included as part of the holiday period.

When a holiday period lasts for a week or more, the weekends during the holiday period and at the end of the holiday period are included. However, the weekend before is not included even if the holiday period is starting on a Monday.

The figure does not take into account specific minimum number of days for students in the final grade of an education cycle.

Longer holiday periods for specific regions or tracks, indicated as 'maximum duration' in Figure 3, are not considered.

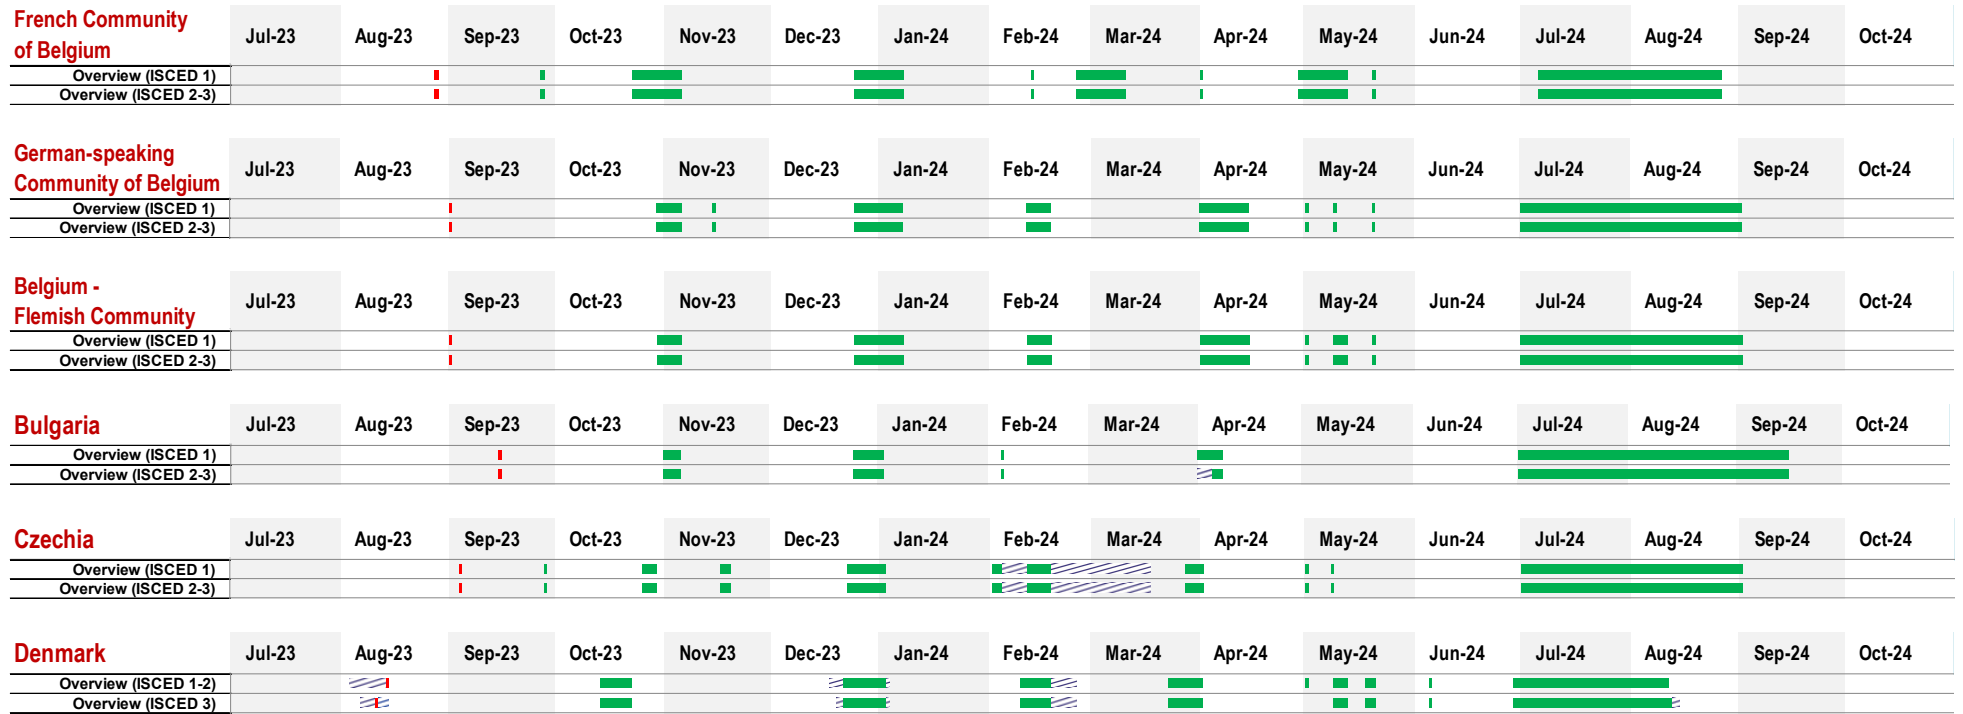

The figure does not take into account specific minimum number of days for students in the final grade of an education cycle.

Country-specific notes

Belgium (Flemish Community): the data has not been validated by the Eurydice National Unit.

Denmark, Bosnia and Herzegovina, Iceland, Norway and Serbia: the distinction is made between primary and lower secondary education (single structure) on one hand and upper secondary on the other hand.

Spain, France, Croatia, Italy, Malta and Portugal: the exact dates for the start of the school year in 2024/2025 are not yet available. The summer period is calculated with the assumption that students will come back to school at the same period as in 2023/2024.

GETTING IN TOUCH WITH THE EU

In person

All over the European Union there are hundreds of Europe Direct centres. You can find the address of the centre nearest you online (european-union.europa.eu/contact-eu/meet-us_en).

On the phone or in writing

Europe Direct is a service that answers your questions about the European Union. You can contact this service:

- by freephone: 00 800 6 7 8 9 10 11 (certain operators may charge for these calls),
- at the following standard number: +32 22999696,
- via the following form: european-union.europa.eu/contact-eu/write-us_en.

FINDING INFORMATION ABOUT THE EU

Online

Information about the European Union in all the official languages of the EU is available on the Europa website (europa.eu).

EU publications

You can view or order EU publications at op.europa.eu/en/publications. Multiple copies of free publications can be obtained by contacting Europe Direct or your local documentation centre (european-union.europa.eu/contact-eu/meet-us_en).

EU law and related documents

For access to legal information from the EU, including all EU law since 1951 in all the official language versions, go to EUR-Lex (eur-lex.europa.eu).

Open data from the EU

The portal data.europa.eu provides access to open datasets from the EU institutions, bodies and agencies. These can be downloaded and reused for free, for both commercial and non-commercial purposes. The portal also provides access to a wealth of datasets from European countries.

The organisation of school time in Europe. Primary and general secondary education – 2023/2024

This report provides an overview of the school calendars for primary and general secondary education in 37 European countries. It presents information on the start of the school year and its length as well as the timing and length of school holidays.

The Eurydice Network's task is to understand and explain how Europe's different education systems are organised and how they work. The network provides descriptions of national education systems, comparative studies devoted to specific topics, indicators and statistics. All Eurydice publications are available free of charge on the Eurydice website or in print upon request. Through its work, Eurydice aims to promote understanding, cooperation, trust and mobility at European and international levels. The network consists of national units located in European countries and is co-ordinated by the European Education and Culture Executive Agency (EACEA).

For more information about Eurydice, see: <https://eurydice.eacea.ec.europa.eu/>.
