ECOBASE

Eco-Friendly Nature-based solutions to mitigate soil degradation

This project is supported by the Interreg IPA ADRION programme under the Interreg Funds (European Regional Development Fund and IPA III)

The ECOBASE project aims to address soil degradation in the EU's ADRION region by developing sustainable solutions harmonized with EU legislation. The project aims to combat soil degradation, while also providing innovative tools for policymakers and farmers. The project promotes sustainable regional development, environmental sustainability, and biodiversity, enhancing the quality and safety of food products.
