PROTECTING, RESTORING AND VALORISING NATURAL HERITAGE

## Resilience in Desertification and Drought for Mediterranean

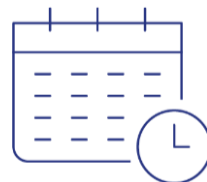

### OUR PROJECT

RedeemM aims to put in place an integrated Water Governance Strategy by bringing together 12 partners and 29 associated organisations from 11 countries across the Mediterranean region.

Seven pilot actions test nature based and innovative solutions, including solar irrigation, monitoring technologies and ecosystem restoration. The insights will shape a replicable governance strategy, an interactive serious game, dialogue spaces, and a stakeholder platform, turning technical planning into a mission to combat desertification and drought.

**Total Budget**  
€ 3.846.019,55

**Project Duration**  
45 Months

**Interreg Funds**  
€ 3.076.815,64
