About RIGENESI

# **RIGENESI**

Action 4.2 of the "*Extraordinary Plan for the Regeneration of Olive Growing in Puglia*"

## **GENERAL OBJECTIVE**

To support the regeneration of the olive sector in Puglia and strengthen institutional and technical capacities to combat *Xylella fastidiosa* through international scientific cooperation, capacity building, exchange of good practices, communication.

## **INTERNATIONAL DIMENSION**

Focus on the Mediterranean area

## **KEY TARGET GROUPS**

- Researchers and Agronomists
- Plant Health Service Officials
- Policy Makers and Institutional representatives
- Stakeholders in the agricultural sectors

## **PARTNERS**

CIHEAM Bari & Regione Puglia

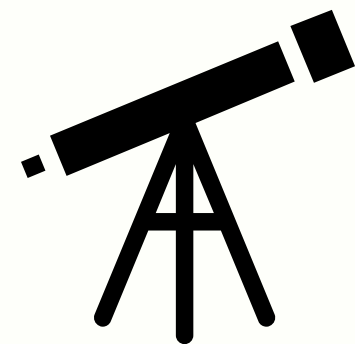

# RIGENESI

## OUR VISION

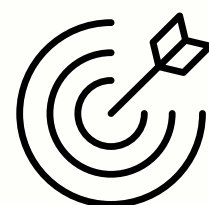

Only through **#COOPERATION** among institutions is it possible — in some cases to prevent, and in others to combat — the plant health emergencies that we in Apulia have been facing since 2013, and which risk spreading throughout the Mediterranean area.

# RESEARCH BOOTCAMP

## A SHARED INSTITUTIONAL SPACE

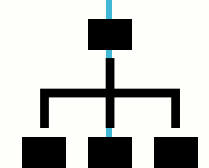

### OBJECTIVE

Advanced training, collaborative field research, exchange of good practices and innovation in the management of *Xylella fastidiosa* infection.

### TARGET

**12-15 PARTICIPANTS** selected annually from Plant Health Service officials, Specialized Technicians, Researchers and Agronomists from Med area.

### STRUCTURE

**3 EDITION, 1 PER YEAR, 3-WEEK FULL IMMERSION** at CIHEAM Bari

1<sup>st</sup> **Edition:** Balkans

2<sup>nd</sup> & 3<sup>rd</sup> **Edition:** Magreb and Mashrek

MUTUAL

EXPERIENCE
