- 2 CRM 2021-2024 – General objectives
- 3 Investment area CRM 2021-2024 - Objectives
- 4 The economic benefits of regional economic integration
- 5 Investment Incentives Inventory 2024 - Purpose and significance
- 6 Montenegro Investment Incentives Inventory – Overview

Common Regional Market CRM (2021-2024)

- The Western Balkan economies have committed to cooperate to enhance economic cooperation and regional integration through the adoption of a Common Regional Market (hereinafter referred to as CRM 2021-2024) at the Summit of Prime Ministers of the Western Balkans held on 10 November 2020 in Sofia, in order to turn the priority objectives of regional cooperation into effective reforms.
- The Common Regional Market ZB6 CRM (2021-2024) continues on the results of the Multiannual Action Plan for regional economic space (MAP REA 2017-2020) and aims to connect the economies of the Western Balkans through the free movement of people, goods, services and capital, thereby fostering the creation of regional digital, industrial, investment and innovation links.
- The aim is to create a regional market based on EU rules and procedures and bring the Western Balkans closer to the single European market.

REGIONAL INVESTMENT AREA – OBJECTIVES

- **Creating a dynamic regional investment area of the Western Balkans, in terms of foreign direct investment (FDI) growth, renewal and construction of new value chains, while strengthening their participation in European and global value chains and creating new jobs.**
- **Removing barriers to regional investment offerings**, providing opportunities for economies of scale, geographically diversified operations and overall more efficient allocation of resources within the regional market, thus undermining the integration of companies from the region into international value chains.
- **Access to larger and more sophisticated regional markets** is desirable for investors, as it allows them to benefit from economies of scale and organize their production processes in the region in a much more efficient way. In the case of an investment aimed at efficiency, investors will decide to locate themselves in a particular economy only if that economy is well integrated with neighboring markets (e.g. functional cross-border infrastructure, simplified export procedures, licensing requirements, standards, etc.).
- **The increased coherence of investment policies and integrated markets** enables companies to fragment their production processes across the region, which reduces investment time and cost and can stimulate the development of regional value chains.

ECONOMIC BENEFITS OF REGIONAL ECONOMIC INTEGRATION

FOR CITIZENS

- Enabling the smooth flow of goods, services, capital and highly skilled labor,
- Accelerating economic prosperity and stability,
- Creating new jobs and improving living standards.

FOR ENTREPRENEURS

- Easier access to investments and simplifying procedures for establishing a business,
- Access to a market of more than 20 million consumers,
- Better integration into the EU and global trade chains,
- The application of innovation and digitalization in business.

FOR THE GOVERNMENT

- Increase in the inflow of foreign and intra-regional investments,
- Accelerating economic growth, entrepreneurial activity and trade,
- More favorable investment conditions that make the investment environment more attractive for foreign investments,
- Goods and services from the region are becoming more competitive in the global market,
- Better preparedness to join the EU.

COMMON REGIONAL MARKET CRM (2021-2024)

Main objectives

The aim is to facilitate the smooth flow of goods, services, capital and highly skilled labor

Primary differentiation

Makes the region more attractive for investment and trade

Target region

Western Balkans
Europe

Key benefit

Brings prosperity to the citizens of the Western Balkans

A competitive alternative

Accelerating convergence with the EU

INVESTMENT INCENTIVES INVENTORY MEASURES 2024

- A publicly available database of incentives provided by state institutions to investors in various sectors of the economy and geographical locations.

Types of incentives:

- Financial and non-financial incentives (fees, grants, subsidies) tax breaks, duties, excise duties ...

- Legal basis: Primary legislation.
- Sectors: All sectors.
- Geographical coverage: State (national) level

REGISTER OF
INCENTIVE
MEASURES
2024

LINK TO MAP
REA-CRM

CONTENT

INCENTIVE
MEASURES
THAT ARE NOT
INCLUDED

- Perform a detailed mapping of incentives available at all institutional levels and compile a comprehensive and up-to-date list of incentives in Montenegro.
- Common Regional Market CRM 2021-2024

- Non-government-funded/donor-funded incentives: EIB / EBRD / UNDP / WBG / EU / loans, grants, etc.

WHY THE INVESTMENT INCENTIVES INVENTORY IS IMPORTANT

FOR INVESTORS

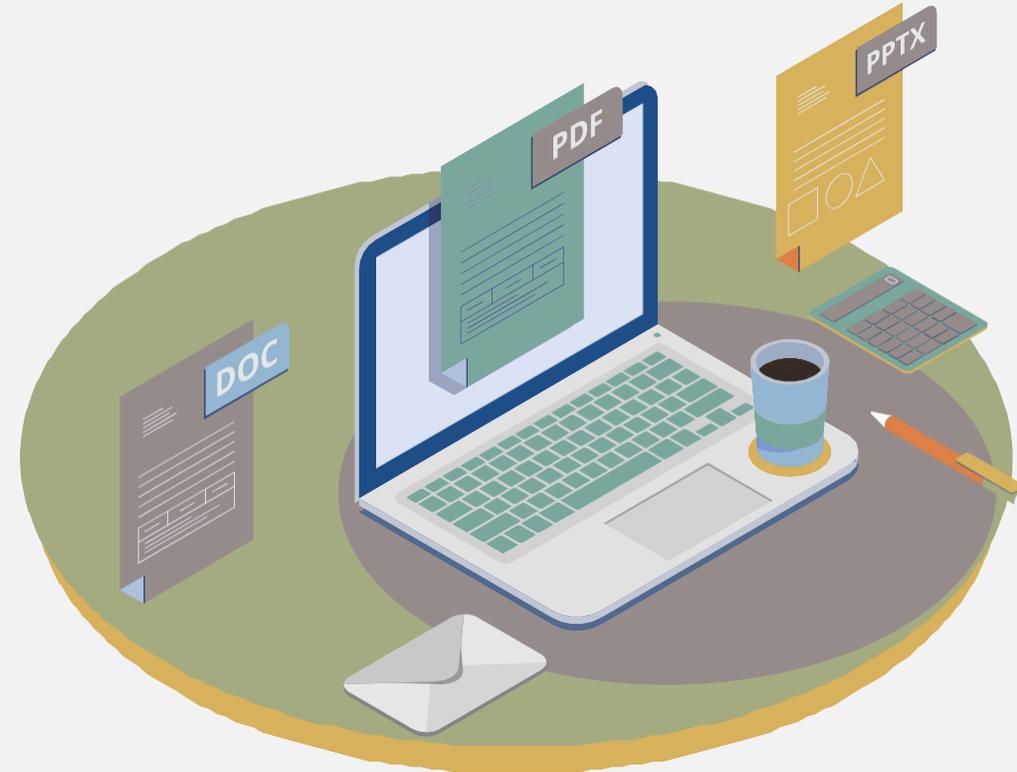

- **Reduce the time and cost** associated with research, identification and application for incentives.
- **Raise awareness of available incentive measures** that can help attract more investors and generate more investment activity.

FOR GOVERNMENT

- **Identify tax incentives** for private investment and estimate the costs and benefits of incentives.
- **Promote investment opportunities** by using incentive information as part of the investment promotional material.
- **Improve policy coordination** between government bodies involved in economic policy making, making relevant information available to all participants.

FOR OTHER CHARACTERS

- **Increase transparency and access to information** on incentives given to entrepreneurs, craftsmen and the SME sector.
- **Assistance in research and assessment** of investment policy, fiscal expenditures, etc.

WHY GOVERNMENTS SHOULD EVALUATE THE INVESTMENT INCENTIVES INVENTORY

01

Financial analysis

- It helps to assess the profitability of various investment incentives through cost-benefit analysis (CBA) projects implemented by the Ministry of Economic Development and other ministries.

02

Explanations from an ethical point of view

- Helps to allocate costs more efficiently and allocate investment incentives while respecting the principles of ethics and fairness.

03

Socio - economic benefits

- It helps to compare different investment incentives and assess their impact on social policies.

04

Risk assessment

- It helps to concretely measure the effectiveness and effectiveness of various investment incentives related to risk management.

INVESTMENT INCENTIVES INVENTORY OF MONTENEGRO 2024
